

Riverbank Buffet: Islands of the Day Before Workshop 2

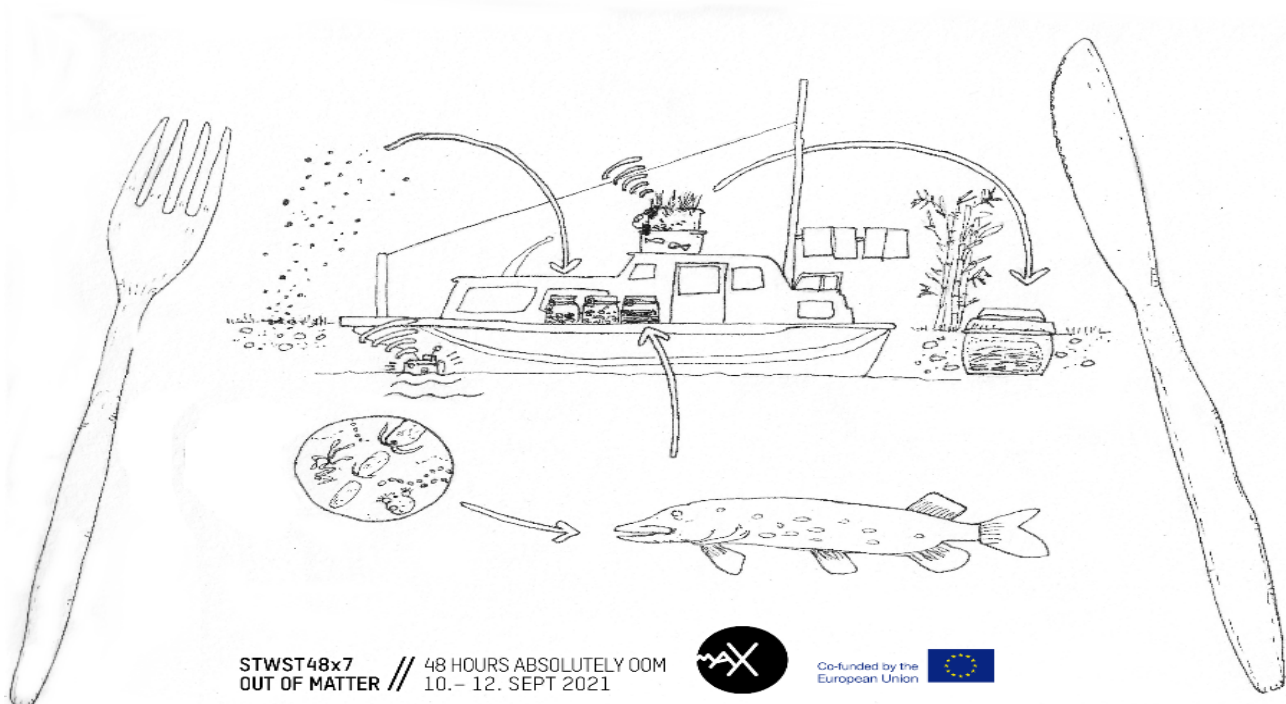

“From Farm to Fermentation”

Wednesday September 22nd 2021

Referring to the Umberto Eco novel *Island of the Day Before*, this workshop will revisit the *Information Islands* of the Riverbank Buffet project that were presented last Friday. These include:

Stage 1 Harvest 1500-1800
@Hafengarten, Hollaberehof
Estermannstraße 11
(Near Haribo and Bauhaus Bus #27 from Taubenmarkt or 15 minutes by bike)

Stage 2 Fermentation 1800-2100
@TeleAgriCulture Test Kitchen
Rudolfstraße 27-4 (down the alleyway)

This workshop will explore strategies for hybrid complimentary farming that accelerate and optimize grow using a combination of traditional and modern techniques. Meeting at the Hafengarten Community Garden, where the Riverbank Buffet Project farm is located, you will be given a tour of the farm and in particular the food that was grown for this project and the ongoing experiments that took place this summer for the TeleAgriCulture Project.

Following this we will go to the TeleAgriCulture Test Kitchen and ferment some of the produce we harvested, exploring a range of fermentation techniques using lacto, koji, SCOBY and kefir and wild yeast microbes . We will also taste previous fermentations and discuss the microbial processes and health benefits. There will be food provided.

All participants will need to follow the 3Gs protocol to attend the second component of the workshop indoors.

RSVP by emailing: julian.stadon@ufg.at
